#### Scope of Work (SOW)

#### **General Notes**

This document outlines the Scope of Work (SOW) for the proposed interior renovation of the Prosecutor General's Office, 12th Floor Velaange, Malé, Maldives.

The scope covers three primary areas within the project:

- Reception Area and Meeting Room
- Meeting Room
- Executive Room and Bureau

Each section includes the specific contractor responsibilities, scope of construction and installation, exclusions, items to be supplied and installed, and execution notes. The intent is to clearly define deliverables and expectations for the contractor while ensuring compliance with the approved design drawings and specifications.

#### 1. Contractor Responsibilities

The contractor is responsible for the full execution of interior works based on the design package provided. This includes all required labor, materials, fabrication, delivery, installation, testing, and coordination with other trades.

General responsibilities include:

- Verify all site dimensions before commencing work.
- Ensure compliance with drawings, specifications, and approved finishes.
- Coordinate with electrical, mechanical, IT, and HVAC services as required.
- Maintain a clean and safe worksite during the project.
- Protect completed works and existing structures.
- Ensure proper waste disposal and handover of site in clean condition.

#### 2. Scope of Work by Area

#### A. Reception Area and Meeting Room

Works include:

- Preparation of wall, ceiling, and floor surfaces.
- Fabrication and installation of reception desk and cabinetry.
- Installation of wall paneling, partitions, and signage as per design.
- Ceiling works including LED lighting integration.
- Painting and finishing of designated wall areas.
- Integration of IT, electrical outlets, and cable management points.

#### **B. Meeting Room**

Works include:

- Surface preparation of walls, ceiling, and floor.
- Fabrication and installation of meeting table with integrated cable ports.
- Installation of storage units, paneling, and shelving as per drawings.
- Drop ceiling construction with integrated LED and pendant lighting.
- Installation of TV console/wall panel with concealed cabling.
- Application of wall finishes and paint.

#### C. Executive Room and Bureau

Works include:

- Preparation of wall, ceiling, and floor finishes.
- Fabrication and installation of executive desk, workstations, and chairs.
- Supply and installation of storage cabinets, filing units, and shelving.
- Ceiling modification with integrated LED, pendant, and strip lighting.
- Installation of decorative wall panels.
- Integration of IT and electrical points as per power and lighting plans.
- Painting and finishing of all designated areas.

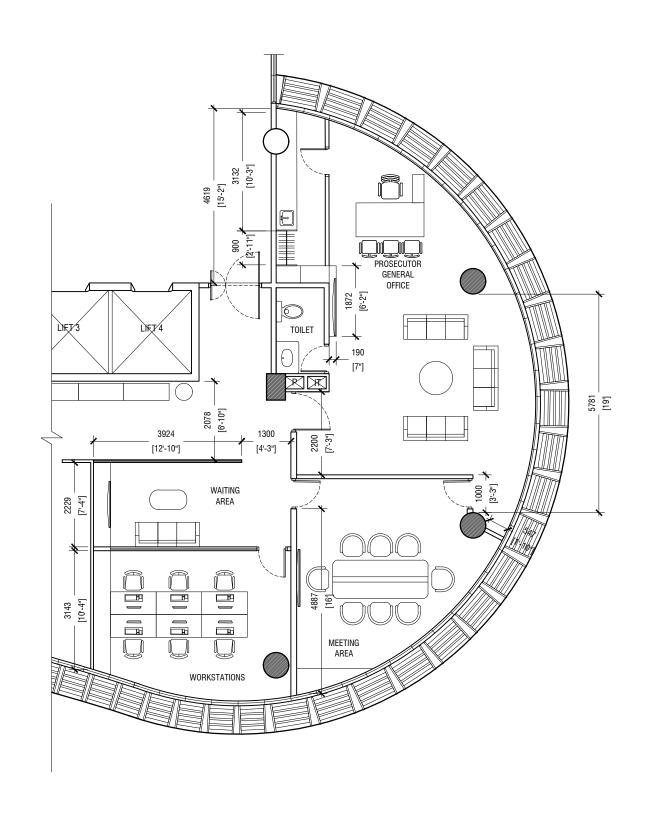

#### 3. Exclusions

The following are not included in the contractor's scope unless otherwise specified:

- New installation of HVAC systems (only relocation/adjustments if required).
- Civil works not related to interior finishes.
- IT and network cabling beyond termination points.
- Any items not explicitly mentioned in the design drawings or this SOW.

#### 4. Execution Notes

- Contractor must verify all site conditions and measurements prior to fabrication and installation.
- All works must follow approved design drawings and specifications.
- Ceiling works, lighting, and electrical wiring must be closely coordinated to avoid conflicts.
- Any deviation or uncertainty must be submitted to the client/architect for approval before proceeding.
- All finishes must match the approved Specification Sheet (Ref. Codes 3.01–8.02).

# Scope of Work (SOW)

#### **General Notes**

This document outlines the Scope of Work (SOW) for the proposed interior renovation of the Prosecutor General's Office, 12th Floor Velaange, Malé, Maldives.

The scope covers three primary areas within the project:

- Reception Area and Meeting Room
- Meeting Room
- Executive Room and Bureau

Each section includes the specific contractor responsibilities, scope of construction and installation, exclusions, items to be supplied and installed, and execution notes. The intent is to clearly define deliverables and expectations for the contractor while ensuring compliance with the approved design drawings and specifications.

# 1. Contractor Responsibilities

The contractor is responsible for the full execution of interior works based on the design package provided. This includes all required labor, materials, fabrication, delivery, installation, testing, and coordination with other trades.

General responsibilities include:

- Verify all site dimensions before commencing work.
- Ensure compliance with drawings, specifications, and approved finishes.
- Coordinate with electrical, mechanical, IT, and HVAC services as required.
- Maintain a clean and safe worksite during the project.
- Protect completed works and existing structures.
- Ensure proper waste disposal and handover of site in clean condition.

## 2. Scope of Work by Area

# A. Reception Area and Meeting Room

Works include:

- Preparation of wall, ceiling, and floor surfaces.
- Fabrication and installation of reception desk and cabinetry.
- Installation of wall paneling, partitions, and signage as per design.
- Ceiling works including LED lighting integration.
- Painting and finishing of designated wall areas.
- Integration of IT, electrical outlets, and cable management points.

# **B. Meeting Room**

Works include:

- Surface preparation of walls, ceiling, and floor.
- Fabrication and installation of meeting table with integrated cable ports.
- Installation of storage units, paneling, and shelving as per drawings.
- Drop ceiling construction with integrated LED and pendant lighting.
- Installation of TV console/wall panel with concealed cabling.
- Application of wall finishes and paint.

#### C. Executive Room and Bureau

Works include:

- Preparation of wall, ceiling, and floor finishes.
- Fabrication and installation of executive desk, workstations, and chairs.
- Supply and installation of storage cabinets, filing units, and shelving.
- Ceiling modification with integrated LED, pendant, and strip lighting.
- Installation of decorative wall panels.
- Integration of IT and electrical points as per power and lighting plans.
- Painting and finishing of all designated areas.

#### 3. Exclusions

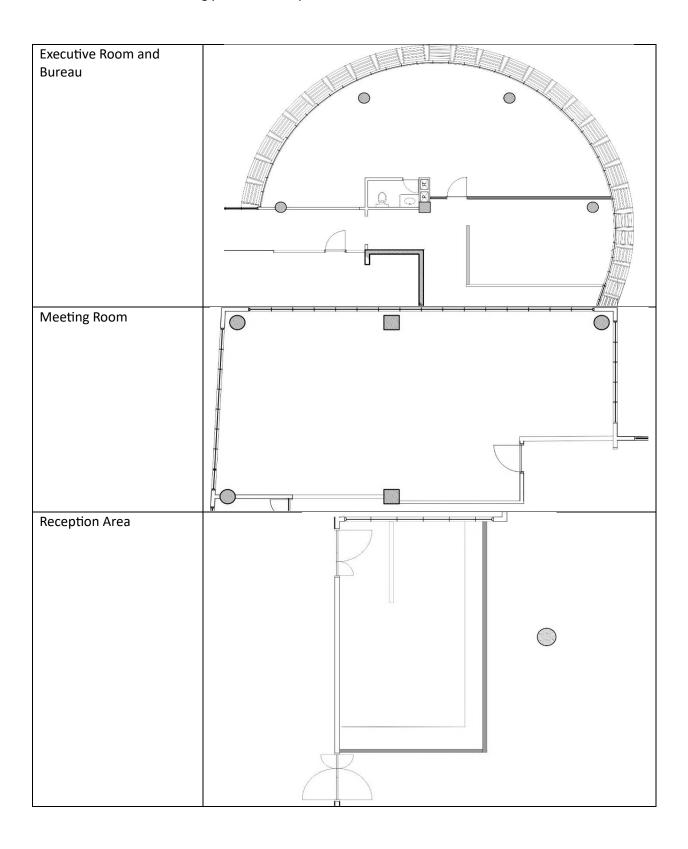

The following are not included in the contractor's scope unless otherwise specified:

- New installation of HVAC systems (only relocation/adjustments if required).
- Civil works not related to interior finishes.
- IT and network cabling beyond termination points.
- Any items not explicitly mentioned in the design drawings or this SOW.

## 4. Execution Notes

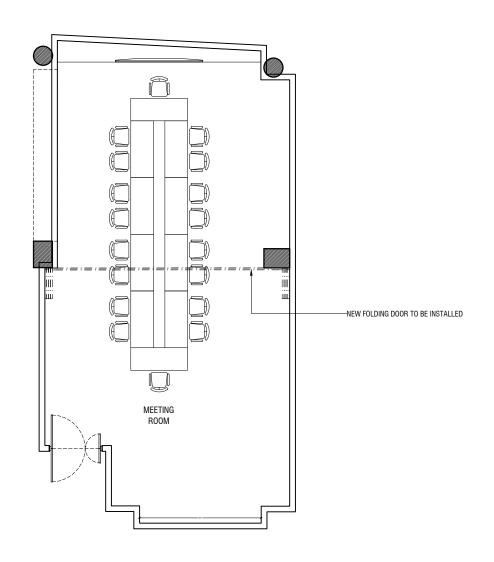

- Contractor must verify all site conditions and measurements prior to fabrication and installation.
- All works must follow approved design drawings and specifications.
- Ceiling works, lighting, and electrical wiring must be closely coordinated to avoid conflicts.
- Any deviation or uncertainty must be submitted to the client/architect for approval before proceeding.
- All finishes must match the approved Specification Sheet (Ref. Codes 3.01–8.02).

Please find below the existing partition floor plan.
